10/2000 to 4/2005

**Senior Multi-Media Developer**  
**Breakfast of Champions**

Covent Garden, London

Duties include the conceptualisation and programming of multimedia applications for deployment on CD-Rom, PDA, internet and broadcast media. Working with a small team of designers and programmers I took a lead role in developing a variety rich media solutions for varying industries. The agency specialised in support and marketing for events such as major conferences. The role involved advanced Macromedia Flash and Director programming as well as steaming media. I had a client facing role, providing active advice on technology abilities and limitations.

Company clients include:

**Microsoft**(Flash banners and interactive modules for web and pda)

**Cisco**(Director and Flash based CD-Roms for marketing)

**Dewars**(millennium Hogmany live streaming coverage for main website)

**Pepsi** (Mission Impossible themed Flash game)

**KPMG** (monthly flash video/animated news letter, numerous CD-Roms)

1/1997 to 10/2000

**Department Manager (Multi-Media)**  
**Intuitive Systems**

Stevenage, Herts

Duties include the programming for computer displays, including the user interface of bespoke software solutions, websites, and multimedia products. Creating and managing the firms' corporate image. Liaison with clients to ascertain requirements and the management of the implementation of graphics into finished software products. Line management responsibility for 5 designers and programmers.

Company clients include: **The Halifax** (interactive director based illustrative financial models) **Woolwich** (interface design for bespoke sales tool) **Nationwide** (interface design for bespoke sales tool)

2/1996 to 1/1997

**Design Development Co-ordinator**  
**Lehman Brothers**

London

Duties include the implementation the company's first intranet. Oversaw the development of training materials and intranet resources. Coordinated production of corporate presentations in print(paper and 35mm slide media) and electronic (PowerPoint) formats. Managed the implementation of global corporate standards locally.
